Dear Mary:

I am writing to thank you for the long hours that you put-in working for us in the theoretical and experimental aspects of dielectric and radome research for radar antennas. Your conscientiousness, diligence, cooperation, and versatile ability made it possible for us to accomplish a great deal of work.

Your constant cheerfulness helped us keep our morale up under the tension of wartime pressure.

With kindest regards and best wishes for the future,

Most sincerely,

E. B. McMillan
